VISHNU S

Nagercoil, TN | vishnu.shunmugasundaram@gmail.com | +91 7598282437 | github.com/v1shhn | linkedin.com/in/v1shhn

Profile Summary

Recent engineering graduate with hands-on experience in software development, backend prototyping, and web development. Interested in backend and full-stack development, with experience building REST APIs and database-driven applications. Strong foundation in Java, Spring Boot, SQL, data structures, and object-oriented programming.

Technical Skills

Languages and Frameworks: Java, Python, C, SQL
Databases: MySQL, MongoDB
Core Concepts: OOP, Data Structures & Algorithms, REST APIs
Tools & Platforms: Linux, Git, Docker, Postman, Apache Kafka

Experience

Project Trainee (Software Development) Sep 2025
Web Amigo Technologies LLP, Chennai

- Designed and implemented mini proof-of-concepts (POCs) for data parsing, automation, and backend efficiency.
- Collaborated with the product team to translate business logic into optimized, modular, and testable code.

Web Development Intern Dec 2023
Elewayte, Bangalore

- Developed and deployed a responsive website using HTML, CSS, JavaScript, and MySQL-backed data storage.
- Participated in website design, testing, and deployment activities while gaining practical experience in frontend development.

Projects

Library Management REST API | Java, Spring Boot, MySQL

- Developed a RESTful backend application for managing library resources using Java and Spring Boot.
- Designed and implemented CRUD operations for books and user records with MySQL database integration.
- Structured backend services using modular and reusable code principles and tested REST API endpoints using Postman.

Weather Forecast Application | MongoDB, Express.js, React.js, Node.js

- Developed a responsive full-stack web application using the MERN stack, with React.js for the frontend and Node.js and Express.js for backend services.
- Integrated external weather APIs using asynchronous request handling to retrieve and display real-time weather data.
- Built RESTful APIs and implemented dynamic data rendering using React components, Hooks, and state management.

Education

Government College of Engineering, Tirunelveli Jul 2026
Bachelor of Engineering – GPA: 8.1
Minor: Sensor Technologies and IoT
Relevant Coursework: Artificial Intelligence and Machine Learning Fundamentals, Wireless Network Design, IoT Processors
Recognitions: Ranked 1st in Department (Anna University Examinations)

Evans Matriculation Higher Secondary School, Nagercoil Mar 2020
Higher Secondary (HSC) – 88 % | Secondary (SSLC) – 99%

Certifications

Problem Solving Through Programming in C – IIT Guwahati
Introduction to Industry 4.0 and Internet of Things – IIT Kharagpur MOOC

Achievements

- **EDGE' 2023** – II Prize, KIMO India Intra-college Tech Competition.
- **SYNERGY 2025 –** Runner up in Technical Presentation, NIT Trichy.
